Draft Peer Review summary-Mockup (8-21-12).docx

Hi Ayn,

I'd like to touch base with you on peer review activities and ensure I have correctly captured your understanding of peer review related to hydraulic fracturing work.

Please see attached (See items I and V)

I am particularly interested in capturing who (name and Office) has been assigned the following roles for the 2 HISA projects.

Decision Maker
Peer Review Leader
Peer Review Coordinator

Can I set up a brief discussion with you for tomorrow?

Thanks much!

=====
